

THE BENEFITS OF PARTNERING *with Global Education Oregon*

Global Education Oregon
333 Oregon Hall
541-346-3207
geo.uoregon.edu/about-us

Global Education Oregon (GEO) is a study abroad program provider located at the University of Oregon (UO). In addition to serving as the campus study abroad office, we partner with more than 35 colleges and universities around the country offering students academically rigorous and thematically diverse study abroad programs at our centers in Europe, Africa, Asia and the Americas. We offer unique opportunities both for your students and faculty. Through our numerous centers around the world, your faculty have the opportunity to customize programs and, if they wish, teach students from all over the United States. The following are some benefits of establishing a partnership with GEO.

1. Thematic, academically rigorous program offerings for your students with no additional institutional investment.
2. Collaboration with faculty at an innovative Research 1 institution.
3. Customized marketing materials designed for your campus and highlighting only those programs that your campus sponsors. We do not promote any programs that are not approved.
4. Comprehensive support for students, staff and faculty in matters related to promotion, recruitment, application, orientation, program participation, and reentry.
5. Customized billing arrangements.
6. Comprehensive risk management overseen by GEO staff in Oregon with protocols developed in collaboration with UO Risk Services; experienced directors on-site to work closely with GEO staff and students on all health and safety issues that may arise.
7. Access to GEO Scholarships such as the Ambassador Scholarship (\$500-\$1,500 award) and the Map your Future Scholarship (\$1,000), a freshman planning award.
8. Staff and faculty are eligible for development grants that support visits to GEO centers abroad and exploration of future customized programming.

GEO has a robust staff of more than 20 committed international education professionals to support your institutional needs both in the United States and abroad. For more information on how to get started, please contact a member of the GEO Institutional Relations team.
